Dear social sciences' freshmen,

As you are reading this page, you have already become our privileged members. I, on behalf of Social Sciences Society, HKUSU, welcome you all to this big family.

Social Sciences Society HKUSU (SSS, HKUSU) gained the nickname "three snakes" as the three "S's" look similar to three snakes, that's why this publication is called Snakers. The Society is the official representative of all social sciences' students. Its aims are to provide its members with welfare and to raise the public awareness of society both in the campus and the territory.

The publication of "Snakers" is specifically suited to the needs of our freshmen. We hope that it can help you when you face any difficulties in the beginning of university life, and I believe that it can also introduce the Society to you, so that you may find some sort of sense of belonging within the campus.

Best regards,

Chan Chi Keung, Kaizer
Chairman

- c) to promote studies of social sciences
- d) to foster a sense of consciousness of the community
- e) to represent the students of the Faculty of Social Sciences as a whole and,

Branched from Social Sciences Society, HKUSU, there is an Executive Committee, four affiliated academic societies (Politics and Public Administration Association SSS HKUSU, Psychology Society SSS HKUSU, Social Work and Social Administration Society SSS HKUSU and Sociology Society SSS HKUSU) and one half-affiliated academic society (Geographical, Geological & Archaeological Society SSS HKUSU). All the members of the executive committee and executive committees of academic societies are born from votes of members in the General Election, therefore our Society will definitely do our very best to serve and to provide welfare for our members. 本屆內閣 This cabinet

澄

本年度內閣閣名為「澄」，意旨通透、清澈，反映本閣將竭盡力與會員從客觀理性的角度觀察社會，令會員對社會事務有一份深入而透徹的洞察力。

「澄」之諧音為「情」，本閣希望透過舉辦各種活動增進會員之間的感情，使社科同學可以在一個融洽的環境中學習，互勉互勵，一起在追求知識的道路上求進步。

The name of our cabinet this year is a Chinese character "澄", pronounced as "ching" in Cantonese, which means clarification in English. It symbolises our aim in raising students' consciousness to social affairs and to observe as well as to understand the society from an objective view.

The pronunciation "ching" also refers to another Chinese character "情", which means affection. This reflects our other aim in promoting comradeship and understanding among members in order to build a more harmonious environment of studying and to march for progress in our road of knowledge seeking.

Junior Courses

注意：每一年課程的教學模式以及導師都有可能改變，本刊列出只是根據去年的課程作出意見，不能百分百盡信。

Note: Teaching mode and lecturers are not likely to be same every year. The comments made here are only according to the way it was taught last year, please do not 100% rely on this guide.

POLI 1003 Making sense of politics

POLI 1003 是計劃主修 PPA 的BSS同學以及 BSS (GL) 的同學的必修科目。本科主要圍繞一些基本的政治概念，所以其實亦不太難，要做的 coursework 也不太多，只有一個 presentation 和一篇 3000 字的論文，整體的 grade 也不差，所以我建議不打算主修 PPA 的同學也可以選修。

POLI 1003 Making sense of politics

POLI 1003 is the pre-requisite subject for BSS (GL) students and those BSS students who wish to major in PPA. This subject mainly discusses some basic political concepts, therefore, it wouldn't be too difficult. Coursework includes one presentation and a 3000-word essay, so I recommend that even those who don't plan to major PPA can give it a try.

POLI 1002 Fundamentals of public administration

如果閣下報讀社會科學是為 PPA 的話，那 POLI 1002 將會是你的必然之選。這個課程可說是公共行政的入門課，內容圍繞好些著名公共行政學家的理論，給人對 PA 有一基礎認識。雖然，很多時候你都會發現課程趣味欠奉，幸好，它的工作量不多，最重要是考試題目容易掌握，值得 FRESHMEN 一報。

POLI 1002 Fundamentals of public administration

If you choose to study politics and public administration for social sciences, then POLI 1002 will definitely be your choice! This course is an introductory course for public administration. Content includes theories of many researchers on administration. It gives you a fundamental knowledge on public administration. You may find it boring but, luckily, the workload isn't really heavy. Moreover its exam questions are easy to grab! It worths you a try!

Junior Courses

Introduction to psychology

主修心理學的必修課程，通常都有很多其他學院的過不用擔心，因為心理學是社會科學的核心科目，所以被取錄。

教授／導師都不同，工作量亦大不同。就像剛過去的沒有像下學期那麼多測驗，下學期有group則news cutting和短文較多。

課本是厚厚的一本Psychology: themes & variations. 很多東西要記住，但畢竟心理學是可以容易套入科目，讀起來是頗有趣的喔！

Introduction to psychology

requisite for students who intend to choose psychology as this course is rather popular as many students from other an elective course as well. However, no worries! As of our 5 cores in the curriculum, generally you could take the course.

in both of the semesters. Professors, tutors and workload in each semester. Take last year as an example, there were lot in the 2nd semester and it required a group project, while 1st semester news cut and short essays.

required is called "Psychology: themes & variations. (7th quite a lot of memorising in this course, however, subject that can be applied into daily lives, so it is still overall course!

PSYC1004 Introduction to quantitative methods in psychology

這科也是主修心理學的必修科目。於社會科學的世界裡，研究是重要的部份，而處理數據則是研究中重要的一環。

這一科主要教授一些基本的統計技巧，也許在高考時會應考相關科目的學生會感到比較容易適應吧。不過，當中亦有很大部份的內容是異於高考課程的，如各種Hypothesis Testing等，而且此科目更會教大生來說是不可或缺的。每星期有兩節一小時的課，還有一節一小時的導修課。

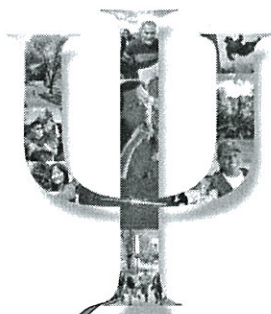

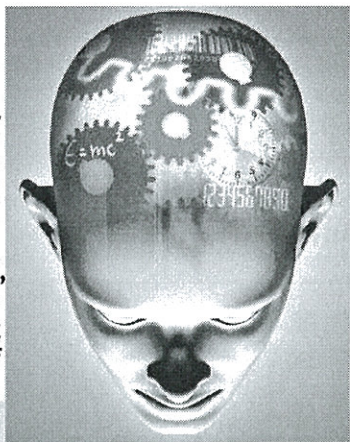

常聽到不少人說很怕算術，但個人來說，此科還不算是很難哦！因為課程還不算多，亦非難以理解。功課方面，數量不多，一星期只需計算四至五條題目罷了，難度亦未見礙事。另設一中期試及一末期試，難度不高，並無測驗，故負擔不重。至於授課的講師，除了生動有趣外，其他亦不過不失吧！至於導修導師，則大多非常用心教學，亦樂於解答任何問題。

PSYC1004 Introduction to quantitative methods in psychology

This is another pre-requisite course for psychology majors. In the world of social sciences, researches play a significant part. Dealing with data is exactly the core of researches.

This subject mainly focuses on some statistics skills, probably students who have done it in AL will be more familiar with it. This subject is somewhat identical to AL Statistics, like different kind of hypothesis testings, this subject would also teach students to use a computer programme specially designed for dealing with statistics. This computer programme, SPSS, is extremely important for psychology major students. Each week there are 2 sessions of 1-hour lecture, and 1 session of 1-hour tutorial.

It is always heard that people are scared of Maths, but this subject isn't too difficult, to be honest. Everything is easy to digest and workload isn't heavy at all. You only have to calculate for 4-5 questions per week. There are 1 mid-term test and 1 exam, and there are no quizzes. The lecturer doesn't really give lectures in a lively way but both the lecturer and tutors do teach wholeheartedly!

GEOG1016 Nature Conservation for sustainable societies

GEOG1016是一個讓我們關心多一點地球，學習為環保出一份力的科目。在今天的世界，這是一個很重要的課題。其課程內容很多元化，包括了不少自然課題如水、森林等。曾經在高考修讀地理科的同學可能會比較容易掌握本科，不過其他同學也不用擔心，有很多內容其實是一些基本常識。

這一科並不像其它社會科學的科目般以論文形式作功課，而是包括填充及短答，考試則是以論文形式，但只要熟悉課題就可以應付過去。

上完這一科後，一定會對地球多一份關心。

The course content is very diversified, many environmental issues like water conservation, tropical rainforest management are included. For those who have taken the AL Geography, they may find this course quite easy to follow. However, there is not need to worry if students have no such a background because many topics are basic and general.

The assessments for this course, unlike others which are essay writing, are simple questions and fill-in-the blanks questions. However, the examinations are in form of essay writing, but all we have to do is to be familiar with the topics.

After taking this course, students would definitely pay more attention to the Earth.

大學五件事 5 "must-do"s in University

讀書

大學的生活多采多姿，有上莊，住hall等等；相比起來，讀書反而變了次要。有很多人在取得平衡上遇到不少困難。在平衡不到的時候，我仍然建議把讀書放作優先，因為各位同學的身份是大學學生，所以仍應以學業為重。各同學幾經辛苦才能考進大學，應該好好珍惜，不應本末倒置，何況，honour對不少學系的學生來說都是很重要的。

Studying

U-life is always exciting and graceful. You can choose to join executive committees, stay in halls, etc. Lot of people do not see studying as important compared to other "must-do"s. People always find it hard to strike a balance between these events.

However, I would still suggest you put studying as your first priority. It is very important that you shouldn't forget your identity as a university student. Studying itself is the very original factor why you entered university. Don't forget that you've spent a lot of effort to get yourself this identity. It is something that you should treasure all the time! Remember, honour classes are still very important to us!

Joining the Ex-co

You often hear the words "Sheung Jong", meaning "becoming an Executive Committee Member (Ex-co) of a student society". Perhaps you have similarly tried so in secondary school. In HKU, it is not difficult to find somebody who is an Ex-co as there are hundreds of different student organisations for people who want to commit in them. This also shows how powerful the attraction of becoming an Ex-co is in HKU.

The student societies in HKU are similar to those that you have in secondary schools. However, the members you serve are from a wider range with much more people and that your administration is totally independent of the University. You can do whatever you want when you are an Ex-co with the society, yet of course you have to bare the ultimate responsibility. Why is it called "Sheung Jong"? That's a mystery.

Some people regard becoming an Ex-co "sacred". It will not be as easy as just saying "I want to become a Ex-co!" To become an Ex-co, you need to be determined and have the courage to bare a lot of responsibilities. Before you officially become an Ex-co, you need to reach a consensus with you fellow executive committee members (or "Jongmates") in order to cooperate and come up with a year plan. This will be followed by campaigns where you will be questioned and learn from your predecessors and other members. You will only become an Ex-co at last when you got the required votes. "Sheung Jong" is a difficult matter, yet you must not be frightened by it. Apart from knowing a team of best friends, you will reflect of everything that you've done in the end with a great sense of accomplishment.

兼職 *Part Time*

上了大學，不能不做的是找工作。

兼職可以幫補家計，可以學習獨立不再依賴父母，更可以早一步認識社會。進大學除了學習知識外，亦要好好準備將來投身社會，兼職可以讓大家在畢業前裝備自己。

最多人選擇的就是補習，因為它時間比較彈性，不會影響上課時間，而且工資不錯。補習亦可訓練自己和表達力，是兼職的一個不錯選擇。但是，要注意的是，有些同學會為了賺取更多錢，一個月可能跑很多補習。這樣，兼職變了他們的正職，嚴重影響學業。

除了補習，大家亦可到一些公司實習。學校的CEDARS、學系和學院都會協助同學尋找工作，大家的電郵信封也會不定期的收到這些信息，大家不妨留意。

不論你在尋找兼職或是已經找到心儀工作，都必須小心分配時間，小心身體和小心被騙，工作賺取的金錢也要小心使用啊！畢竟兼職只是其中一個讓大家率先體驗社會的途徑。

One thing you must do in the university is to find a part-time job.

A part-time job can earn a living for you and soothe the burden of the family, learn to be independent from parents, and get to know society more. Students should not only learn from books in the university, they should also start to equip themselves to get into the community. One good way to achieve this is through part-time jobs.

The hottest part-time post is tutorial teacher. It is because of the elastic time arrangement, no influence to schooling and good wages. Being a tutorial teacher can help students to improve their patience and ability of express, and this is a good choice for part-time job. There are some points students need to pay attention to. Some students may take up as many lessons as possible in order to earn more money. Their time is totally occupied that their academic performance is very much affected.

Apart from giving tutorials, students can have internships. HKU CEDARS, departments and the faculty will help students to seek these jobs. We will receive frequent emails about these information. Make sure you check your mail box regularly.

Students should be careful about time management, your health and traps of the jobs when finding and doing part-time. Better management should be made about the wages. Part-time is only one of the way to know more about the society, after all.

港大的舍堂主要分為3類，有興趣有時間的freshmen大可參加舍堂所舉辦的體驗營，看自己適合哪一間hall！

在港大住hall的好處有：可以上學方便些、認識新朋友(hallmates, floormates)、玩team、參加或參與籌備hall的活動等。港大舍堂擁有濃厚的「舍堂文化」其實與兩項活動有很密切的關係。

為了在聯舍體育比賽中奪取獎項，每一間舍堂的堂友都會在放學後、晚上，甚至是周末，抽出時間作定期練習，務求在比賽場上為自己的舍堂增光。當然，除了體育運動之外，舍堂也有文化活動供同學參加，例如劇劇或辯論比賽等。所以謂「舍堂教育」，就是讓我們在汲取學科知識以外，同時兼顧其他方面的發展，從而達致「全人教育」。

Living in a Hall

HKU's halls are mainly divided into 3 categories. If you want to see what kind of hall suits you the most, do join their touch camps to try out what hall life's like!

Living in HKU's hall surely benefits you a lot. It's going to be much easier to go back to campus if you live far away. You are going to meet a lot of new friends(hallmates, floormates, etc), you can play not only sports team but also cultural teams, and surely you can train your organising skills by joining organising committees in halls!

"Hall cultures" is something unique in HKU, it's closely related to both sports and cultural activities. Aiming for championship in Inter-hall Sports Competitions, every hall's hallmates will reserve their time no matter after school or the late night to do practises-these are all for their halls! Other than sports, surely cultural activities play a main part as well, like debating team and drama team. "Hall education" aims to broaden our mind over the academic arena, in order to reach a "whole-person education".

大學五件事

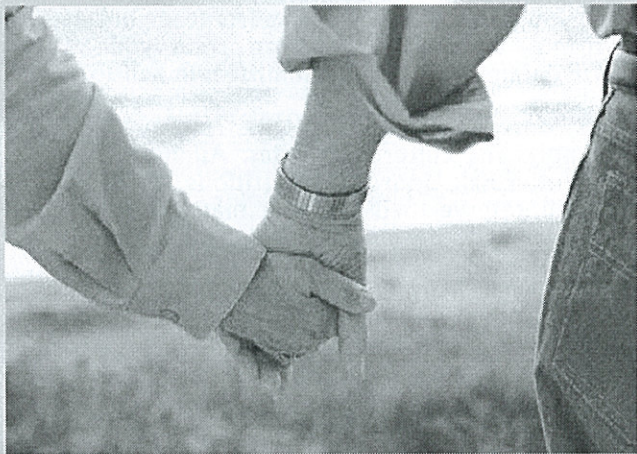

5 "must-do"s in University

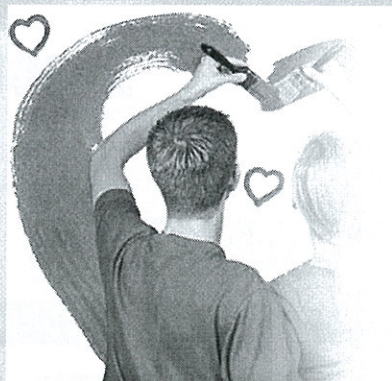

拍拖

上大學後，找到男／女朋友的機會比起中學時大大提升，從舍堂的體驗營到迎新營，從讀書到上莊，只要有心去找的話，要得到一段新的感情其實不難。重點是你認為有沒有必要刻意去找。

大學跟中學不同的是，大學的生活比起中學的時候要充實得多，也精采得多，男朋友和女朋友在同一所大學內可能各自在過著不同的生活，因為男朋友上莊太忙而分手、因為兩人住在不同的舍堂或是因為兩人的朋友圈子不同等而分手的人大有人在。此時一段感情裡最需要的是互相體諒和互相信任。如果你的另一半不是在這所大學的話，那便更需要將心比己地諒解對方了，畢竟大學比中學忙得多，在不同的大學的話，見面的機會便變得少之有少了。

可能大家在剛進來大學的時候會立即找到自己目標，但是在開始之前請先多了解對方吧，畢竟一拍即合不是必然順利的，找了一個不適合自己的伴侶比選錯科可能還要困擾！至於拍拖要放在大學五件事中的第幾位，自己決定吧！但無論你放在第幾位也好，男／女朋友不是玩具，不是可以說沒空、性格不合就隨便丟掉。一段感情其實是包含責任的，敬請珍惜！

Dating

The opportunity of getting a boyfriend /girlfriend is going to be much higher in uni as there are a lot of channels to meet someone new, from hall's touch camp to hall's orientation camp, from studying to "sheung jong". As soon as you desire to get one, it isn't a difficult task at all. The main point lies on whether it is that necessary to spend a good effort finding one.

The major difference between university and high school is that uni-life seems to be much more exciting and rich. Even if the couple is studying in the same uni, the two may be living totally different life. It is not rare to see couples breaking up due to the other halves spending too much time on "Sheung Jong", the two are living in two different halls, each one of them has a different friend circle, etc. What a relationship really needs here is mutual understanding and mutual trust. If your partner isn't studying in this uni, then you will have to spend even more effort to understand him/her. After all uni life is much busier than that in high schools, the chance of seeing each other will definitely be less.

Maybe you can rapidly find your target after entering this uni, but please do spend more effort to know each other before everything begins. The chemistry doesn't always happen smoothly. Getting a wrong partner is going to be as horrible as choosing a wrong subject! How should you weigh dating's priority compared to the other "must-do"s? It's all up to you. But no matter how you prioritise it, partners aren't toys after all! You don't just throw it away. A relationship contains responsibilities, be thoughtful!
